

Instructions for Clubs on how to start a Schistosomiasis fundraiser

Start by advertising on the effects of schistosomiasis and explain to members and to other people in your school that it only costs 2 dollars to save a life

Set up a "Lifesaver Trophy Jar" (it can be any clear vase or jar) in the classroom of your club's faculty advisor and put a lifesaver into the jar each time your club receives a donation of \$2. This jar will serve to show members the effect that they are having upon saving lives.

Fundraising methods:

Restaurant fundraiser (such as partnering with Chipotle)

Putting flyers around your school and collecting donations during club meetings

Doing a bake sale and using the profits for donations

Additional Ways to Advertise:

Use a sticker or bracelet that says "I saved a life" and hand it out when somebody donates in order to spread the message

Go onto your school's announcements/news and speak about your club's Schistosomiasis fundraiser

Put personalized branding on your "Jar" and flyers by going on the Rotary Brand Center in order to promote your Interact Club more effectively à (https://brandcenter.rotary.org/en-us/search?tab=1&tt_assettype=Logos&tt_keyword=Interact&tt_lang=EN&dt_lang=EN)

Publicize your club's fundraiser on Instagram (or other Social Medias) and remember to tag @interactaz5495

Where to send the donations that you collect

Collected funds should be sent to our Interact District Treasurer, Rex Townsend at:

Interact District 5495
P.O. Box 12626
Prescott, AZ 86304

Checks should be made payable to "Interact District 5495," with a memo designating the funds for the Interact Global Schisto Project. We will accumulate these funds in our district Interact account, and will then periodically forward them to the Phoenix 100 Rotary Club, (which is submitting the Rotary Foundation Global Grant application), identifying how much each club has collected for the project.

For more information about the Interact Global Schisto Project, go to the Interact District 5495 Website:
